

Sophos Global GT Lights

Championship Regulations 2011

1.0 GENERAL TECHNICAL REQUIREMENTS AND EXCEPTIONS

1.1 Only cars fully in compliance with these technical regulations shall be permitted to take part in the Championship.

1.2. The design rights and drawings of all components manufactured specifically and solely for Global GT Light car are owned by Graham Hathaway Engineering Ltd. The approved supplier for Ireland is Global GT Lights Ireland

1.3 Global GT Light cars and components, including spares manufactured and supplied, may only be supplied by Global GT Lights Ireland.

1.4 It is the entrant's responsibility to use only eligible components. The Eligibility / Safety Scrutineer on duty has the responsibility for checking that cars comply with the Technical Regulations and may invite a representative of Global GT Lights Ireland to assist in verifying the source of components. Thereafter the Scrutineers decision shall be final and binding. Cars found to be in breach of the Technical Regulations will be the subject of a written report by the Eligibility/Safety Scrutineer to the Clerk of the Course for the appropriate action to be taken.

1.5 From time to time it may be necessary to approve an alternative equivalent to a part. These will be notified by Global GT Lights Ireland, in an official bulletin to these regulations as eligible for the Global GT Lights cars and all championships.

2.0 CHASSIS

2.1 Only chassis bearing a Global Chassis Plate are eligible. The chassis and engine frame must remain unaltered from the 2000 specification supplied by Graham Hathaway Engineering Ltd. Rollover bar height extensions can only be supplied & fitted by Global GT Lights Ireland. No additional riveting or bonding of the side / floor panels is permitted.

Should the chassis become damaged replacements must be purchased through Global GT Lights Ireland. The Eligibility Scrutineer, reserves the right to disallow a repaired car which does not appear to be have been properly repaired.

Sophos Global GT Lights

Championship Regulations 2011

3.0 BODYWORK

3.1 The bodywork including the rear wing assembly, size, position, aerodynamic shape and dimensions must remain unaltered. Replacement body panels and rear wing assembly must be purchased from Global GT Lights Ireland, and may be labeled / marked.

3.2 Drivers seat is free within scope of MSA/MSI yearbook Regulations.

3.3 Mirrors. Manufacture is free provided there are two, one each side of the cockpit and each complies with MSA J.20.15.1

4.0 ENGINE

4.1 The engine is a standard, un-tuned Yamaha 600cc Thundercat or FZR. All engines must be sealed and recorded prior to the start of the season. Cars must be available for engine power checks at any time at the request of Championship Eligibility Scrutineer. Any engine found un sealed or with broken seals, will be subject to a power check if the performance is deemed to be suspect. The cost of initial & any further power checks is to be paid by the competitor. Test location to be advised.

4.2 The maximum power output permitted is 98 B.H.P. in 6th gear, measured at the gearbox output sprocket.

5.0 ENGINE COOLING

The cooling system, under tray, electrical water pump and mountings, to remain standard and supplied by Global GT Lights Ireland.

Type and manufacture of coolant is free.

Oil cooling is permitted and supplied by Graham Hathaway Engineering Ltd.

Sophos Global GT Lights

Championship Regulations 2011

6.0 INDUCTION SYSTEMS

Standard carburetors must be fitted and may not be modified. Standard air boxes from either engine must be used. Air filter element is free but must be fitted in the air box. If a Thundercat air box is used it may be fitted with air intake pipes, supplied by Global GT Lights Ireland

Carburetor jetting is free. Inlet manifolds must remain as standard.

7.0 EXHAUST SYSTEM

The exhaust system must remain standard and supplied by Global GT Lights Ireland. Sound must not exceed 105db

8.0 IGNITION SYSTEMS

The ignition system & ECU system must remain standard as supplied by Yamaha with no modifications. The eligibility scrutineer may supply a replacement ECU that the competitor must change to on request.

9.0 FUEL DELIVERY SYSTEM:

The fuel delivery system must remain as supplied.

10.0 SUSPENSION

10.1 The suspension system must remain standard as manufactured and supplied by Global GT Lights Ireland. Parts may be labeled / marked for identification.

10.2 Toe in, camber, caster and ride height may be altered within the standard adjustment parameters provided. The minimum ride height/ground clearance under any part of the car is **4cm** with the driver aboard.

10.3 Springs rates are fixed

10.4 Dampers. Tech 2000, Dynamic Suspension and Ohlins supplied by Global GT Lights Ireland may be used.

10.5 A 16mm or 19mm front roll bar must be fitted and supplied by Global GT Lights Ireland

10.6 An Optional 16mm rear roll bar and mountings may be fitted and supplied Global GT Lights Ireland.

Sophos Global GT Lights

Championship Regulations 2011

11.0 TRANSMISSION

11.1 Only the standard Yamaha 6 speed sequential gearbox is permitted. Final drive ratios supplied by Graham Hathaway Engineering Ltd. Engine sprocket to be 14 teeth. Axle sprocket to be 46 teeth. Gearbox ratios may not be changed and will be checked when engines are submitted for power testing.

11.2 Clutch assembly must remain as standard with the exception of drive plates and pressure plate springs.

12.0 ELECTRICS

12.1 All electrical equipment must remain as standard and supplied by Graham Hathaway Engineering Ltd.

12.2 An effective rear red warning light must be fitted.

12.3 Modification to the charging system is not permitted. The alternator must be fully operational and deliver a suitable charge when the engine is running.

12.4 Lap timer and data logging may be fitted complying with MSA/MSI regulations.

13.0 BRAKES

13.1 The braking system must remain as standard. Upgrade kit is available only from Global GT Lights Ireland for pre 2000 cars. This must be fitted in accordance with the supplied instructions without modification.

13.2 Brake pad make and material is free but must fit, in unmodified calipers supplied by Global GT Lights Ireland.

13.3 The brake discs must be steel and may not be modified as supplied by Global GT Lights Ireland.

14.0 WHEELS/ STEERING

14.1 Wheels (7" x 13") and steering must remain standard. Supplied by Global GT Lights Ireland.

18.3 The sponsor's decals will be provided by the Championship Organisers, whereas Entrants are responsible for supplying numbers.

19. APPENDICES

19.1 The approved agent in Ireland is ***Global GT Lights Ireland***

19.2 All parts must be purchased from Global GT Lights Ireland.

Sophos Global GT Lights

Championship Regulations 2011

20.0 VEHICLE PRESENTATION:

20.1 The presentation of the car is fundamental to the profile of the championship/series its sponsors and its audience. Therefore in considering whether to permit any car to race, ant any point during the season, the organisers will regard as paramount the presentation of the car. In taking into account its appearance inherent in which is the standard of its presentation (including interior), they can exclude any car which they consider may prejudice the reputation of the championship / series or is otherwise unacceptable This will include where the car is presented at a race event bearing accident damage sustained at a previous event and which has not been subject to the completion of a full and proper repair. Note: A double header can be regarded as one event for the purposes of this regulation.

20.2. Vehicles, Decals and Overalls/Patches. - Competitors overalls be clean and maintained to a reasonable standard, patches should be affixed in instructed locations and cars deemed to be of an unacceptable standard of presentation may not be permitted to race.

20.3. Promotional activities - Competitors may be asked and will be expected to participate in championship promotion activities at the circuits, as requested by the organisers

The rules should be interpreted, that if it does not say you can do it then you cannot.

After all championship rounds the competitor with the highest points score will be deemed to be the champion.

Scrutineer: As appointed by Motorsport Ireland Technical Advisory Group
