3.3 Award Criteria

3.3.1 The Services Contract will be awarded on the basis of the most economically advantageous tender(s) as identified in accordance with the following criteria:

Cost of System

This is a per day cost. This should be based on a fixed price per car per day for the three year period of the contract.

In order to evaluate the competition, a common pricing model is required. A fixed price per car per day is the pricing model agreed.

The of starters at events in the last calendar year is outlined below to assist in this requirement:

2.3 Services Contract

The paragraph 2.3.1 should be deleted as 3.5.1 – return of signed contracts requires the successful tenderer to draft the service contract.

~~2.3.1 Tenderers should note the terms and conditions of the Services Contract at Appendix 5 to this RFT. (Delete)~~

3.5.1 The successful Tenderer must draft and a Services Contract in duplicate, to the Contracting Authority no later than 14 calendar days from the date of letter informing them of their success in the competition. A signed Services Contract forwarded by the successful Tenderer is not binding on the Contracting Authority until the Contracting Authority has signed the Services Contract. The terms and requirements outlined and in this RFT will form part of the contract.

Appendix 1: Requirements and Specifications

1.0 Overview of Service Requirements

Hardware Requirements

- Each vehicle is to poll at 5 seconds intervals (maximum) and each time a vehicle stops, starts or does more than a 15 degree turn.

Having reconsidered the specifications, the poll requirement for the 15 degree turn poll is no longer essential.

Existing Contracts

There is no contractor engaged at present – concept testing with Sporttraxx, an Italian company for a number of events in 2019.
